DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 6-8 and 12-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Woudenberg et al. '098 alone. Woudenberg shows a CPR device comprising: an inextensible belt (22), a detachable bladder comprising an inextensible bottom chest panel (62), a top-belt panel (60), the panels together forming a radially inextensible bellows (Fig. 4, column 5, lines 4-11), but does not specify the material choice and does not show a larger bladder. However, limitations regarding material choice or size are considered obvious choices of design, either known in the art or based on user preference to suit particular applications.
